## Welcome to the beautiful and sunny island of Cyprus!

We are the first international summer camp in Cyprus, with 20 years of experience! We are aware that the quality of the accommodation and the teaching are very important elements of language trips for foreign students. For this reason, we have great pleasure to announce that since 2019, we have upgraded our summer camp and we have a new residence and a new school building. We are offering a variety of new programmes during the year as well as creating new study and activity programmes for summer.

Students stay in the 3-star hotel, situated in a beautiful and peaceful area of Limassol just few minutes drive from the beach and tourist area. All facilities such as kiosks, coffee shops, restaurants are just a short walk away. Our new school premises are located just 15 minutes walk away.

Cyprus is the best place to combine study with great holidays! This is due to the fact that Cyprus was a British colony and nearly everyone speaks English. That is why you can practice your language skills whilst enjoying

the beach and the sunshine! The island boasts 350 days of sun per year and to cool off in the summer months you can swim in the hotel pool, in the sea or enjoy "the biggest splash on the island" at the Waterpark of Limassol. Cyprus has a rich and varied history and students have the opportunity to visit many interesting places and to enjoy the rich culture, traditions and cuisine of the island.

We provide stimulating and effective language programmes which meet the needs and requirements of our international students.

One of our main objectives is to learn to cooperate with others and develop a variety of language and social skills through innovative and modern teaching methods. Students find the lessons as fun and inspiring because they are conducted in a very different manner comparing what they are used to at school. They learn to communicate and interact with people from other countries and other cultures. This leads to mutual understanding and tolerance towards others so that strong friendships are created which continue for

long time, even after the students leave Cyprus.

We hope that you find all the information you need about our school in this brochure but please contact us for any queries you may have.

We look forward to welcoming you soon!

### New location!

The English Sunny School of Cyprus was founded in 2000 and it was the first international summer school in Cyprus. Our school has been offering English language learning to international students in Cyprus for 20 years. The school is based on the concept that lessons can be fun and interesting whilst being dynamic and educational too.

All the native English speaking teachers are fully qualified and have a lot of experience with teaching mixed- nationality courses. They are able to take full advantage of the inter-cultural potential of their students and they encourage co-operation and communication. Nationalities are mixed so that interaction in the lesson is always in English.

### Location

Since 2019, we have the pleasure to hold lessons at our new school premises. The school is located in Limassol, just before the Yermasoyia roundabout which leads onto the main motorway connecting the towns of Larnaca, Paphos and Nicosia. It is close to all facilities with supermarkets, kiosks and banks right on the doorstep. It is a modern school with bright, air-conditioned

# The School

classrooms and a specialised computer room for study on the internet and for producing projects. There is a large reception area with a water tower and toilets and the classrooms are situated around this main area. Behind the reception area, can be found the large sheltered terrace, where students have their lunch. The school is situated a short walk from the hotel. The beach is just a 15 minutes walk.

### Teaching methodology

The ESSC Summer School prides itself on providing language courses for students of all ages and all levels. Emphasis is placed on learning through communication and co-operation so that students interact with each other through teacher monitored activities. Given that the world is changing and becoming ever more digitalised, we have incorporated a wide range of computer and online activities into our teaching programme. Students are encouraged to make use of digital devices to produce videos and projects which can be shared online through our social network sites.

### Size of the classes

Teenage classes are small with a maximum

of 15 students. The junior classes have a maximum of 8 students as, at this young age, learners require more direct contact with the teacher. Adult classes are small with a maximum of 10 students, but usually there are 3-4 students only. In the case where there is no class available, adults are offered one-to-one classes (10 individual lessons instead of 20 group lessons).

### First day and last day

Students take a placement test soon after they arrive and are allocated to classes according to their level. All the students take a test at the end of their stay and they receive a certificate with their grade.

### Timetable

From Monday to Friday, morning classes from 9:00 am till 1 pm with 2 short breaks. In total 20 lessons per week of 50 minutes (not 45 as many other schools so students have 100 minutes extra per week!)

# Summer Camps

## ENGLISH CAMP FOR TEENAGERS 11-18 YEARS OLD

This is an all-inclusive package for teenagers to learn English and to have fun in the sun too! Students stay for a minimum two-week period at the campus on a full-board basis. It is a great opportunity for young people to make new friends, develop learning skills and to exchange information about other countries using a common language of communication.

Students attend 20 lessons of 50 minutes of English each week. Lessons are in mixed-nationality groups of maximum 15 students, although there are usually less. After breakfast, students go to class which starts at 9 am in the morning and there are 4 lessons a day till 1pm. There are 2 breaks of 15-20 minutes. The emphasis is on conversational English to develop communication skills. Teenagers 15+ have also the possibility to book 20 IELTS exam preparation lessons per week instead of general English.

### New technology during lessons of summer camps

We believe that it is very important to develop students' English together with their computer abilities since they will require

these skills for future study and in the workplace. In order to present students' collaborative work during the summer camp, we produce presentations on the computer or an on-line magazine which has photos and videos taken by students, written work such as poems and short texts, games and interesting information.

Students receive a welcome pack containing: school bag, a notebook, a pen, a file and a T-shirt.

## JUNIOR ENGLISH CAMPS 6-10

The youngest children, 6-9 years old, are accepted with parents on the parent & child programme, or in a group with the group leader. Children 10 years old can come on their own with special airline assistance. Our school representative collects the child from the airport directly from the airport personnel.

Juniors follow a different programme to teenagers and have lessons geared towards learning English through fun and games. Lessons are held in modern, air-conditioned classrooms and are maximum 4 - 8 students. They will have 20 lessons of English a week. Our teachers are experienced in dealing with

young learners and so can adapt the classes to the students' needs and motivation.

They stay at campus on full-board basis. Young students follow their own activities programme adapted from the teenage programme – basically they join in with some activities but they also have their own special games and fun events. There is a supervisor for them 24/7 so that they always have someone to help them with day-to-day tasks such as washing clothes, getting ready in the mornings and making sure that they are eating well and healthily.

## DAY CAMP

For children who do not stay at the student accommodation camp but in other hotels with their parents, we offer the possibility to join one of our summer day camps - with English lessons in the morning and activities in the afternoon. Teenagers can join in some of our evening activities, too. Children receive a hot lunch from Monday to Friday with children from ESSC School at the campus. They may also have the evening meal, for an extra cost. Teenagers can also join our weekend excursions (pack lunch is not provided at that option).

## TEENS 13-18 years old 10 days with water sports

For students who would like to stay more than 1 week but less than 2 weeks and have more exciting water sports than English lessons, we have created an innovative, fantastic 10-day programme with fewer school lessons!

### These include:

- aquarobics in the morning in the pool,
- 2x banana ride,
- crazysofa ride,
- 2x pedal boat,
- 2x canoe,
- 2 entrances to the Olympic swimming pool or a ride on the motorboat.
- All day Fasouri Waterpark Excursion

In addition, students will play volleyball and football on the beach, have swimming competitions and ball games in the sea. In the evening, they will have karaoke, movie evening and interactive games.

This programme is available for teenagers 13-18 years old who are A1+ - B1 level. It runs only in June and in August on specific dates. Please check availability with us.

## Fun English

**Fasouri Watermania** is the ideal place for families and children to spend a one-day outing, away from work troubles and paper loads. At the waterpark our students enjoy being entertained in a safe, fun and relaxing environment. They can get away from the hassle and bustle of the crowded city and it is a unique thrilling experience. The waterpark packs an impressive array of attractions, facilities and services. Dressed in a Polynesian theme, the Waterpark adds a tropical feeling to experience of our students.

Our students can enjoy the Biggest Wave Pool in Cyprus, grab their tubes and spin down a six story, 120 meter long curvy slide or relax at the lazy river that stretches an incredible 400 metres around the park. For those who like the adrenaline they go the Kamikaze slide where they can reach speeds as fast as 50km/h all by themselves!

Participants will have 20 fun English lessons during the stay - some of them will be organised outside the classroom, in a more relaxed atmosphere. The teacher will work on communicative skills by introducing new vocabulary and encouraging discussion.

The activity programme is based on great water and beach activities.

## Parent & Child

The **Parent & Child programme** was developed for families travelling together who wish to spend holidays in the same place. By joining in age appropriate courses and activities, it allows both to enjoy an active and fun vacation, whilst improving English skills.

**Younger children** will stay in the same room as their parents. If 2 adults are travelling with children 11+, the children may stay in a room with other students of a similar age. The programme features separate components for parents and children, but they can enjoy some afternoon, evening and weekend activities and excursions together too.

**Kindergarten (age 2-5)** – children of pre-school age can attend a nursery school possible in June or July, available from 8 am till 1:30 pm with the option of staying later, until 6pm. Children have the opportunity to interact in English with pupils of their own age from different countries. They spend their time doing activities like games, songs, art and handicrafts. The teachers

concentrate on the development of social and personal skills. The pupils study basic numeracy, problem solving and reasoning. In this creative environment they gain knowledge and understanding of the world around them.

**Babysitting (age 1-6)** - there is also a babysitting option available for the age group 1-6. Parents can leave their child knowing that they are in safe hands, at any time of the day, and, by special request, in the evenings too. Children have a great time, outside the classroom, playing in English and learning new vocabulary.

**Juniors (age 6-10)** – young children join our Junior Summer Camp. In the mornings, they attend class from 9 am to 1 pm learning English through play, songs and fun activities. They have in total 20 lessons per week in small groups of maximum 8 pupils. Children may also take part in the afternoon and evening activities, specially designed and adapted for them so that parents are free to relax or explore the island.

**Teens (age 11-16)** – children above 11 years

old will join the Teenager Summer Camp. In the mornings, they attend language class from 9 to 1pm. They have in total 20 lessons of English per week in groups of maximum 15 students. They may take part in afternoon and evening activities which offer an extra opportunity for language practice and making friends.

Parents – adults have a choice – they can relax by the hotel swimming pool or on the beach or they can attend English class too!! Lessons are with other adults and students 16+ on the same level, adapted to suit the individuals in the class. Parents' lessons take place at the same time as the children's lessons - 9 am until 1 pm. Parents who wish to learn more, can chose individual lessons, two-to-one lessons or take afternoon Business English which is hold in mini groups. Alternatively, parents may take excursions or practice activities, knowing that their children are at our campus, supervised by our teachers and school staff.

## Water Sports

### English + Diving:

This is a unique opportunity to go diving in the beautiful, Mediterranean Sea and to learn or improve your English as all the instructors speak English too!

Scuba diving gives you the chance to experience the wonders of life beneath the waves. It takes you to a different world with new colours, shapes and textures. It is a wonderful experience and allows you to explore the underwater world of historic shipwrecks and amazing reefs.

The minimum age is 10 years old and with learners of this age the group is small – no more than 4 people.

#### - Beginner Scuba Diving

We use the hotel swimming pool so that learners can discover fantastic scuba diving in the pool. We briefly discuss safety procedures and equipment then we take the students under the water, swimming for about 15 minutes under our instructor's guidance.

#### - Open Water Discover Scuba Diving Programme.

First of all, we briefly explain the safety procedures, equipment and a few basic skills. Next, the instructor takes the students into the water (pool or sea) and demonstrates the first skills and gets everyone to practice. When they feel confident we swim in the sea – normally this is done around the break waters just off the beach, in 5 metres of water. Once learners have completed this stage they can then do additional dives, up to a maximum depth of 12 metres. Participants receive a certificate.

#### - PADI Scuba Diver Course

This course provides a life-time dive qualification which is recognised anywhere in the world and allows the diver to dive to 12 metres with a PADI professional. This will take 4-5 sessions involving 3 confined water dives, 2 open water dives and 3 theory chapters. Upon completion of the course we send information to PADI and they send a diving licence to the student.

I love my holiday at  
ESSC School.  
It was very funny.I was  
at the water park at the  
sea I found there good  
friends.

Anton, age 11 y.o.

My stay at ESSC was great.  
The people I met here were  
fantastic. The teachers, my  
friends and even people  
from Cyprus were very nice.  
My classmates were very  
good as well, it was fun.  
I would like to come here  
next Holiday.

Natalia, age 15 y.o.

I love this camp. It is the  
Best camp. It is the Best  
camp of my life.I met  
amazing people. The bosses  
were very good but the Best  
was Lidia.  
The best travel was to Aqua  
Park.I like the most chilling  
at the weekend.

Philip, age 14 y.o.
